

JACEWICZ EUROPEAN WINDOWS INC.

The client understands locking window handle can impede egress operation of the windows. Locking handle key needs to be always visible for everyone and client will instruct everyone living or visiting his or her property how to safely open the window in case of emergency. Also, windows with handles with or without keys can be opened by children and clients take full responsibility for children, by not allowing them to open the windows. Client releases Jacewicz European Windows Inc. of any responsibility in case of any mishaps or accidents related to construction of the windows with or without the keys. Client is instructed how to safely operate the windows with the keys and without the keys.
